

## Crepe Paper Activity-Where's The Point? Question Sheet

- If your point is on the y-axis, please stand.
- If your point is on the x-axis please stand.
- If your point is a solution to  $y = x$ , please stand.
- If your point is a solution to  $y = x + 1$ , please stand.
- If your point is a solution to  $y = x + 2$ , please stand.
- If your point is a solution to  $y = x + 3$ , please stand.
- If your point is a solution to  $y = x - 1$ , please stand.
- If your point is a solution to  $y = x - 2$ , please stand.
- If your point is a solution to  $y = -x$ , please stand.
- If your point is a solution to  $y = -x + 1$ , please stand.
- If your point is a solution to  $y = -x + 2$ , please stand.
- If your point is a solution to  $y = -x + 3$ , please stand.
- If your point is a solution to  $y = -x - 1$ , please stand.
- If your point is a solution to  $y = -x - 2$ , please stand.
- If your point is a solution to  $y = 2x$ , please stand.
- If your point is a solution to  $y = 2x + 1$ , please stand.
- If your point is a solution to  $y = 2x + 2$ , please stand.
- If your point is a solution to  $y = 2x + 3$ , please stand.
- If your point is a solution to  $y = 2x - 1$ , please stand.
- If your point is a solution to  $y = 2x - 2$ , please stand.
- If your point is on the line  $y = -3$ , please stand.
- If your point is on the line  $y = -2$ , please stand.
- If your point is on the line  $y = -1$ , please stand.
- If your point is on the line  $y = 0$ , please stand.
- If your point is on the line  $y = 1$ , please stand.
- If your point is on the line  $y = 2$ , please stand.
- If your point is on the line  $y = 3$ , please stand.
