Dear (Member of Congress/President Bush)

February 18, 2004

The undersigned organizations are writing to urge your support for an emergency supplemental appropriation of \$180 million for the AIDS Drug Assistance Program (ADAP), for Fiscal Year 2004.

As you know, ADAP, funded under Title II of the Ryan White CARE Act, provides access to treatment for low-income people living with HIV/AIDS who are uninsured or lack adequate prescription drug coverage. It is the final safety net for Americans who have no other means of accessing HIV medications, and a lifeline for approximately 95,000 clients every month.

However, many state ADAPs are facing financial difficulties and unable to meet the needs of those who depend on the program. According to the National Alliance of State and Territorial AIDS Directors (NASTAD), as of January 2004, fifteen states have implemented restrictions to treatment access, including waiting lists of nearly 800 people in ten states. Eleven more states are anticipating new or additional restrictions this year.

Meanwhile, the number of people depending on ADAP continues to grow. The Bush Administration has strongly encouraged that all Americans learn their HIV status, and by implementing policies such as the approval and dissemination of the rapid HIV test, the numbers of people being tested are growing. As the ADAP Monitoring Report produced by NASTAD, the AIDS Treatment Data Network, and the Kaiser Family Foundation illustrates, many of these new HIV cases are people who are disproportionately uninsured and low-income and need safety net programs such as ADAP to access treatment that will keep them healthy and productive.

Congress has approved a \$35 million increase for ADAP for FY 2004 in the Omnibus Appropriations Bill. While this increase is appreciated, it falls well short of the \$215 million increase identified by treatment experts as needed to alleviate the current ADAP crisis. Therefore, we urge your leadership in securing an emergency supplemental appropriation for the remaining \$180 million. In addition, we urge you to also support the highest funding possible for the entire Ryan White CARE Act and other vital HIV/AIDS programs in the next appropriations process.

Thank you for considering this request.

Sincerely,
